

job oppo WE HAVE YOUR BACK

JobOppO House; The app-based Veterans' Employment Community

JobOppO House provides a safe and trusted platform for veterans & service leaver to help themselves & their OppOs, in all matters regarding employability & employment.

We are proud to partner Forces Farming to promote the Land Based Sector

JobOppO proudly opened the doors to JobOppO House in late 2021 and have already welcomed 100s of Veteran & Service Leaver "OppOs", keen to help themselves find meaningful employment, help others out – or join our empathetic peer to peer community.

JobOppO House is an app-based Veterans' Employment Community offering a safe place for Veterans and Service Leavers to better understand and articulate the skills they offer. Our OppOs will be encouraged to support one another through the required Gear Change when they leave the military to become a veteran and to provide warm introductions to their network.

We have selected a broad range of sectors we know are attractive and receptive to those with a military background and offer the depth and breadth of opportunities to allow Veterans to add value, prove themselves and find the sense purpose we often miss when we hang up our boots.

Funded by our Employment Partners who pay an annual membership fee to join our exclusive community, our approach is veteran focused, and our model differs from others in the space. We have a dynamic jobs board at the centre of our community and work hard to educate our select sectors about veterans – and vice versa.

What is JobOppO House?

- A free and exclusive Veterans' Employment Community
- A place to discuss and promote veteran employability and employment
- A trusted (agenda and algorithm free) network of like-minded people
- A sector focused approach to veteran employment
- A home for a community like no other

JobOppO advocates widely for the veteran community and seeks to change the narrative around veteran employment. Please join us.
